

# INTERESTING IDEAS

Each month in this space we will show you some very cool ideas you can use for display in your yearbook room. Let them act as an idea starter for you and your yearbook staff.

This month some design ideas for your **Clubs Section**.

**1** Center Grove High School in Greenwood, IN did a super job of covering their clubs in this full color section which featured Fast Facts, action shots, and a colored column for each club.

**2** A wonderful job of covering middle school clubs was accomplished by the staff at Newheart Middle School in Mission Viejo, CA. The full color spread features great features, as well as a cool group shot treatment.

**5** This black and white club section from the 2006 *Unaliyi* produced by the staff at Souderton Area High School in Souderton, PA has great copy, super pics as well as some of the best club captions we have read.

**3** Another full color club section, this one from Putnam City High School in Oklahoma City, OK, features some great cutout photos to accompany their man-in-the-streets interviews and club-related survey results. Great design, excellent infographics and superb captions and body copy make this an award-winning DPS.

**6** Great action dominants filled a very nice club section from Glen A. Wilson High School in Hacienda Heights, CA. The staff did a HUGE club section with each club getting two double page spreads. One (in black and white) focused on the action pics and feature writing while the next DPS (in full color) had more action shots but used the club group shots as their dominant photos. The faces in the group shot were all very visible even though some of the groups easily numbered into the hundreds.

**4** The staff at Rocklin High School in Rocklin, CA produced this gorgeous full-color club section that uses shades of blue matched to the dominant photo as backgrounds on all of the wonderful QuickReads.
